### Review 2

**Comments to Authors: Please highlight to the authors the strengths and weaknesses of their paper and justify your assessment. Please indicate any changes that should be made to the paper if it is accepted.**

It is a very exciting write up. However, there is no finding in the paper as reported in the abstract. There is no sharing on the data related to student interest nor records/analysis of interactive dialogues that took place after doing the museum virtual tour 360. The author also did not comply to ICCOINS2020 paper format(should follow IEEE format and citation style)

Best regards,

Chair,
