Dear Editor
SEYBOLD Journal

We have read and used scientific articles published in SEYBOLD Journal.

The performance of the SEYBOLD Journal was excellent, and the published article helped us conduct research and write scientific reports.

I am Budiandru represent other authors, Lecturer from Universitas Muhammadiyah Prof. Dr. HAMKA, Jakarta, Indonesia.

We have completed a scientific article entitled "**The Detecting Fraud Financial Statement on Mining Companiesin Indonesia.**"

We hope this article can be published in the SEYBOLD Journal because there are interesting findings in the scientific report that can become new treasures in sciences, especially in the field of social sciences.

I am willing to go through the review process following SEYBOLD Journal standards.

Best Regards,

Budiandru

Dear
Budiandru, et al.
Universitas Muhammadiyah Prof. Dr. HAMKA, Jakarta, Indonesia

Thank you for submitting your manuscript to SEYBOLD Journal.

We have completed our evaluation, and the reviewers recommend reconsidering your team manuscript following minor revision. We invite your team article to send back after addressing the comments below. Please resubmit your revised manuscript by March 25th, 2022 or ask whether an alternate date would be acceptable.

When revising your team manuscript, consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any remarks not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit your team revised manuscript, please log in as an author(s) at this email, and navigate to the "Revision" folder.

SEYBOLD Journal values your contribution, and I look forward to receiving your team revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. The paper has some interesting information, and the topic is essential; however, there seem to be some basic questions suggesting flaws in the questionnaire, which put the conclusions in question.
2. The English in parts approaches is incomprehensible, so as a first step, a firm editorial hand would be needed to figure out what needs to be rethought.
3. The literature review refers to engaging experience and studies elsewhere, but it is not well linked to the research and, therefore, the conclusions.
4. The paper's focus is more applicable to Indonesia Only. How about other countries and the questionnaire?
5. There should be more information about the object of research, not about the content of the study.

I hope your team can make improvements as soon as possible and send the revised article again via this email.

Dear

Budiandru, et al.
Universitas Muhammadiyah Prof. Dr. HAMKA, Jakarta, Indonesia

Thank you for your efforts to make improvements to your team article.

Based on Reviewers' considerations, the article has, at some point, increased.

However, your team has to improve on a few more points. Hopefully, your team is willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. I was hopeful that this article would be readily usable though the English in parts is so low that reading is challenging. The topic is of great importance.
2. The literature review includes some tantalizing references, but the links are not made to the specific study even after sorting through the language issues.
3. When study design comes into play, there are serious questions about the system.
4. It might be publishable if the Author could work with a robust English language editor or colleague to clean up both language and argument.
5. A side note is that it's not clear what title references the article.

Articles that have been revised and please send them back via this email.
