Dear ScimagoJr

Please provide information about IJICC which has been out of the scimago ranking in 2020. We hope that articles published in 2020 can still be included in the scimago ranking. Is there a time limit so that our article published in 2020 in May can be included in the scimago ranking.
thanks

reply

Melanie Ortiz 2 years ago

SCImago Team

Dear Natelda,

Thank you for contacting us.

According to the latest update sent by Scopus this year (April 2021), this journal was discontinued in its database as of 2020. Therefore, it seems that they did not send us any data to calculate the scientometric indicators related to 2020 for this journal.

Dear Sir/Madam,

I received the following email from respected International Journal of Innovation, Creativity and Change

indexation from a wide variety of sources.

We hope to reclaim Scopus indexation soon, but for the moment this process is outside of our control."

Please update the SJR Coverage above appropriately.

Thank You.

reply

Melanie Ortiz 4 years ago

SCImago Team

Dear Ra'ed,

Thank you for contacting us.

SJR is a portal with scientometric indicators of journals indexed in Scopus. All the metadata (Title, ISSN, Publisher, Coverage, etc.) have been provided by Scopus /Elsevier and SCImago doesn't have the authority over these data which are property of Scopus/Elsevier. SCImago is not allowed to do any changes of the metadata unless Scopus authorizes it expressly. SCImago has a signed agreement that limits our performance to the generation of scientometric indicators derived from the metadata sent in the last update.

Therefore, we suggest you contact Scopus support regarding this matter here:

https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/

Dear Scimago team,

I did pay the publication fee for US\$700 and published in Vol 13 issue 12 2020, afterwards i heard very bad news that this journal is discontinued from scopus indexed journal. Please inform me that those issue is still covered by scopus, or otherwise would this journal responsible for transferring to other scopus journals? thanks and regards.

Sudaryanto

reply

Melanie Ortiz 4 years ago

SCImago Team

Dear Sudaryanto,

Thank you very much for your comment.

All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2019 was released on 11 June 2020. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.

For further information, please contact Scopus support:

Don't ever publish in this journal. They are really doggy journal. they never review your paper, they will notify you in 24 hours sometimes. They charge you a lot. They publish hundreds articles in n issue. Some papers are not edited properly. They only earn money. Scopus and scimago should stop them from the list. In my country, teaching staff can use publication from this journal for promotion.

Dear Widian
thank you for contacting us.
Sorry to tell you that SCImago Journal & Country Rank is not a journal. SJR is a portal with scientometric indicators of journals indexed in Elsevier/Scopus.
Unfortunately, we cannot help you with your request, we suggest you to visit the journal's homepage or contact the journal's editorial staff , so they could inform you more deeply.
You can see the updated journal's information just above .

Another journal, IJSTR, appears in scopus preview:
<https://www.scopus.com/sourceid/21100894501#tabs=1>

but it is NOT found in SJR. Would you explain why?

Can the journal be said Scopus Indexed?

Many Thanks

SCImago Team

Dear Ahmad, thank you very much for your participation. Our data comes from Scopus/Elsevier, which offers an annual copy of their database.

If you do not locate the journal in SJR, it means that Scopus has not provided us the data.

If the journal appears in the Scopus database, it can be said that the journal is indexed.

Hi Dear...

I see in this journal, the scope of Education in 2017 has reached Q3, but in 2018 it became Q4. why this happened.

Is it possible that the following year the scope of Art and Humanity can also go down?

Is the 2019 assessment already done?

Many thanks

SCImago Team

Dear user, thank you very much for your comment. SJR has been updated on June 1, 2019. Each year Scopus provides us an update database and, according to that new information, indicators are calculated. Annual data updating can change journal's quartile. Unfortunately, we cannot provide data from previous/following years. We're sorry for the inconvenience. Best Regards, SCImago Team

Dear editor

I want to know whether until 2020 this journal is still indexed Scopus? What does it mean coverage 2013 ongoing?

reply

Elena Corera 5 years ago

SCImago Team

Dear Sri, the publication of articles of 2019 is not over yet (we are in actual Month), and much less it has been possible to cite unpublished articles. The 2019 indicators will not be available until June 2020. We can not see what will happen in the future with this journal. SCImago receives the data from Scopus / Elsevier annually and does not have the authority to include, exclude or modify the data provided by Scopus. Best Regards, SCImago Team
