Comments from Reviewer

Thank you for providing me the opportunity to review the manuscript titled "**Improving Risk Management in Islamic Law Banking: The Role of Islamic Law Societal Reporting in Shaping Firm Policy-Making and Profitability in Indonesia**". I enjoyed reading this draft and would like to appreciate your work. Below, I provide my section-wise comments on this manuscript.

1. Abstract is comprehensive. The main objective of the study is clear. Research design of the study should be elaborated. It would add value to your study if you added a few lines explaining the results of study, implications, and some future directions.
2. The introduction and literature writing is good. Please, extend discussion on research gap and support it with the study references that highlighted it as potential area of future research. You should highlight here practical and theoretical significance of study.
3. Methodology is nicely presented. detailed explanation of research design is considerable.
4. Results of study are well described. Throughout the discussion, it would benefit your study to compare and contrast to other studies, showing similar results, measuring the same variables.
5. Conclusion of study is well described. You should state here what you infer from the results of study. There is need to add implications, limitations of research work and recommend some directions for future research.
6. APA style is recommended for research paper. Therefore, you should format the references as per APA guidelines.
7. The overall writing is good. However, you should proofread the draft and make changes as recommended to make the research more comprehensive. Incorporation of above-mentioned comments will make your study publishable.
8. I wish you the best of luck in your continued research endeavors
